BSCNZ CLEANSWEEP™ AWARDS – 19 MAY 2016

IT'S THE FINAL COUNTDOWN! ENTRIES CLOSE MONDAY, 29 FEBRUARY!

Entries for the 2016 BSCNZ CleanSweep™ Awards in association with Staples close on the 29th February. Download entry forms in the members section at www.bsc.org.nz.

Forgotten your member username and password? Contact us today on 09 580 1160 and we can give it to you. We are also happy to email the forms to you direct if you have trouble, email either myself on Lillian.small@bsc.org.nz or Janine on Janine.fillet@bsc.org.nz.

These are the Oscars of the cleaning industry so don't miss out on your seat to attend the CleanNZ Gala Dinner where the BSCNZ CleanSweep™ Awards in association with Staples, are being held. Purchase your ticket or book a table for your company and customers here www.cleannzexpo.co.nz/clean-sweep-awards/ or to find out more visit www.cleannzexpo.co.nz It's going to be an exciting and fun-filled night with

great entertainment including special guests and presenters.

We are pleased to announce the Honorable Michael Woodhouse, Minister for Workplace Relations and Safety, will be officially opening the BSCNZ CleanSweep™ Awards in association with Staples along with giving out a prestigious award on the night. There is no better opportunity to showcase your success and business than at this event.

AWARD CATEGORY IN FOCUS - HEALTHCARE

In this issue of the CleanSweep™ bulletin, we highlight the Healthcare category and the great work Staples is doing to help their clients meet the new high level of cleaning standards required within hospitals around New Zealand.

Within the NZ market we have seen a significant shift by hospitals to implementing cleaning programs which meet the Victorian (AU) standards for cleaning. This standard is designed to provide clarity of purpose for cleaners and contractors to

achieve the outcomes desired by the hospitals. The focus being on continual improvement of cleaning, outcomes, patient wellbeing and mitigating the risk of infection.

While the standard does not prescribe to hospitals how to clean and what products and systems to utilise, it provides a framework to develop cleaning programs.

This framework lays out a measurable audit path across key stakeholder functions and creates a benchmark for cleanliness from which to continually improve. As we all know, striving to continually improve requires implementing the use of innovative products and processes to gain increased productivity and improved results in all aspects of the cleaning function.

As a supplier to a number of DHB's and the contractors who clean them, the Facilities

Specialists at Staples understand how challenging this can be all within budget. Staples and its supply partners have access to some of the best global innovations in safety, machinery, chemicals, microfibre systems and training platforms to help take your site to the next level. We can offer onsite consultation and savvy methods to reduce administration time, freeing up your key people to focus on the things that matter most to your client, cleaning outcomes. Speak to one our Specialists by emailing facilities@staplesnz.co.nz We hope to hear from you.
